Product Code: 10BINO

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: \$999.00

Short Description

The new Huskemaw 10×42 HD Binoculars were born from three years of rigorous field testing from sea level to 12,000 feet in elevation. The result is a compact and lightweight package that's big on performance.

The new 10×42 HD Binoculars leverage the same high- density lens coatings found on Huskemaw's Tactical Series long range riflescopes. The multi- coated lenses are made from the highest quality German F2 Schott glass and deliver extreme clarity and light transmission.

Huskemaw Optics 10×42 HD Binoculars deliver premium performance with stunning resolution, color fidelity and edge-to-edge clarity. When performance, durability and grams matter, Huskemaw 10×42 HD Binoculars make the perfect field companion.
